School Dashboard

for Governors and School Leaders

2016

Key Stage 2

What it is

Six easy-to-use reports which help school leaders and governors to evaluate school performance using the latest 2016 DFE school performance indicators.

What it tells you

The FFT School Dashboard will help school leaders and governors to identify strengths and areas for improvement:

How does attainment and pupil progress compare to the national average?

How are you performing in different subjects?

Do you have any under-performing groups of pupils?

How might the context of your school affect performance?

How does pupil attendance compare to the national average?

Important information for analysing 2016 results

The national curriculum and school performance indicators have changed with scaled scores replacing levels. The expected standard for pupils in 2016 is higher than the expected standard in previous years.

Schools should take care when comparing performance using old indicators (e.g. Level 4+ or APS) and new indicators (e.g. % Expected Standard and Scaled Scores)

To provide trends over time and context for the 2016 results, FFT has converted pupil results from previous years to the new 2016 DFE performance indicators, taking into account the new standards. The blue dotted line on trend charts highlights the changes in 2016.

About the data shown

1 2 3

Actual results

Actual results for your school, using a range of measures such as averages and thresholds.

Gauges

These display headline indicators and whether actual results and pupils' progress are in line with, or significantly above or below, the national average.

Small cohorts

For small pupil cohorts we will suppress the data with an asterisk (*). Where it is not possible to calculate a figure or if data is not available this will be shown by a dash (-).

ESTIMATED ↔ 1 2 3

Pupil progress

The value added progress that your pupils have made from one key stage to the next. FFT compares your actual results to the estimated results based on the progress of similar pupils nationally.

Statistical significance

Green plus signs and red minus signs highlight where either actual results or pupils' progress is significantly above or below the national average.

Data sources

Generated from FFT Aspire which includes data sourced from the DFE (National Pupil Database) and data calculated by FFT. The headline performance indicators will be consistent with RAISEonline and the DFE School Performance tables.

Trends

The dashboard analyses school performance over 3-5 years. Any significant year-on-year improvement is highlighted using an up arrow. Significant declines in performance are highlighted with a down arrow.

Strengths & weaknesses

These highlight key pupil groups and subjects where progress is above or below the national average.

Using FFT Aspire dashboards

The dashboard provides an overview of performance in your school based on your actual results (**attainment**) and the value added pupil progress that pupils have made from one key stage to the next (**progress**).

The dashboard also provides a simple comparison of school performance against national averages. For value added progress measures, this comparison is based on the average progress made by similar pupils across the country. By 'similar pupils' we mean pupils with similar prior attainment, gender and month of birth.
